The FFG UMWELTECHNIK

For 30 years now, FFG Umwelttechnik GmbH & Co. KG has been developing, producing, and distributing innovative, technologically advanced vehicle concepts for suction and flushing vehicles. We are constantly working to improve ourselves and our products. In doing so, we focus on the needs of our customers as well as our ability to operate flexibly in the market.

Start your career with us—high quality standards and innovative strength are one thing that is needed for long-term success. The other is a motivated and well-trained team.

That is why we are committed to promoting young talent and offer training in the following professions:

TRAINING PROFESSIONS *

- › Construction mechanic specializing in welding technology
- › Mechatronics engineer specializing in commercial vehicles
- › Industrial clerk
- › Technical product designer specializing in product design and construction
- › Warehouse logistics specialist

DUAL STUDY PROGRAMS *

- › Business Administration (Bachelor of Arts)
- › Industrial Engineering (Bachelor of Science)

* The gender-neutral form (m/f/d) applies to all apprenticeships.
